# Portable Toilet with Waste Tank and Foot Pump

Standard Edition

These portable units come equipped with a waste tank which collects and stores waste securely, preventing leaks and odours.

The foot pump is a unique feature that promotes hygiene by allowing users to flush the toilet hands-free. This reduces the risk of germ transmission, especially in a high-traffic environment

Included Accessories	Additional Accessories
Seated Toilet	Crane Hooks
Waste Tank (390L)	Rear Waste Outlet Valve
Water Holding Tank (130L)	Urinal
Washing Basin w Tap	Soap Dispenser
Ventilation Pipe	Steel Skid
Foot Pump	Solar Lights
Mirror	
In-use Indicator	
Gender sign	
Skid Legs	
Paper roll holder	

Material	Insulation available	Door Colours	Size	Weight
HDPE (UV-Proof)	Single & double layer	Blue & Grey	115x115x235cm	115kg

# Portable Toilet with Waste Tank and Foot Pump

## Additional Accessories

Deluxe Edition

### Rear Waste Outlet Valve

A rear waste outlet valve in a portable toilet is key for waste disposal. Located at the unit's back, it enables easy waste removal from the holding tank. Its secure closure prevents leakage, ensuring cleanliness and odor control.

### Urinal Attachment

A compact and mobile restroom solution designed for convenience during outdoor activities, travel, and events. These urinals are made from durable, compression-resistant materials, ensuring longevity and ease of use.

### Steel Skids

Steel Skids provide a sturdy and durable base for portable toilets. Constructed from high-quality steel, they offer enhanced stability, making the units resistant to tipping and extreme weather conditions.

# Portable Toilet with Sewer Connect

The Sewer Connect hooks straight up to an existing sewer line for easy waste removal. With a non-slip checker flooring to help withstand the rigours of everyday use

Please note: must be connected to running water and sewage system directly in order to be fully functional

Included Accessories	Additional Accessories
Ceramic Flushable Toilet	Crane Hooks
Plastic Hand Washing Basin	Soap Dispenser
Mirror	Solar Lights
In-use Indicator

HDPE (UV-Proof)	Single & double layer	Blue & Grey	115x115x235cm	115kg

# Popular Upgrades

---

Deluxe Edition

## Crane Lifting Hooks

Portable toilet crane hooks are essential tools for transporting portable restrooms to hard-to-reach locations, such as rooftops or high-rise construction sites.

These devices allow for safe lifting of the units, even when the waste tank and handwash sink are full. They are designed with steel, ensuring safety and efficiency during transport.

## Solar Lights

Portable toilet solar lights offer an innovative solution to lighting challenges in portable restrooms.

These lights harness solar energy to charge during the day and provide continuous illumination at night.

## Soap Dispenser

These dispensers are designed to be easy to install and refill, making them ideal for use in handwash units and portable toilets.
